

Continence Nurse Specialists

CAREMMUNITY is seeking Continence Nurse Specialists to provide Continence Assessments and Management Plans to individuals in the community.

- **Flexibility – choose how many days you work**
- **Work alongside leaders in the field**
- **Attractive Pay Rates – Paid Weekly**
- **Work available throughout the Adelaide Metro Area**

What we offer

- Decide your work-life balance by letting us know how much and when YOU want to work.
- Enjoy private sector pay rates and conditions
- Have the opportunity to further your career by working in this specialised field
- Extremely busy and secure field with demand increasing because of NDIS funded requirements
- A **strong support base** with our friendly and experienced admin staff

The Role

Support clients in the community, promoting continence and managing incontinence. Connecting client goals and aspirations to their Continence Management.

Duties

- Conduct continence assessments in the community
- Develop recommendation on Continence Promotion and Management
- Provide Reports for Referring Agencies including Continence related Assistive Technology Assessments for NDIS participants
- Provide recommendation on Containment Aids if required.
- Maintain accurate patient records
- Work in consultation with other health care members
- To champion client needs in-line with their Goals and Aspirations
- Work with individuals and support organizations to identify the best Continence Aids and Medical Consumables for the individuals requirements
- Help grow a community focused continence assessment service

What you will need

- Minimum 3 years recent clinical nursing experience
- Work rights and capacity to work in Australia
- Current AHPRA Registration
- Current Working with Children, Disability and Aged Check (can easily be applied for)
- Flu Vaccination
- Excellent verbal and written communication skills
- Excellent time management and problem-solving skills
- Ability to work well independently
- Commitment to quality patient care
- Access to Registered and reliable motor vehicle
- Current Drivers Licence
- Relevant qualifications and experience in the area of Continence
- Recent experience in Catheterisation and Catheter Management – male, suprapubic, female would be beneficial

Applications are encouraged from Continence Nurse Specialists, Physiotherapists or Occupational Therapists who enjoy working in the field of continence management and have appropriate skills and experience.
